

*20 movies from all Ohio filmmakers.*

## TWO FREE SCREENINGS

The short form film has made a return after being shuttled off in the 1970's through the 1990's. Originally, short films were the only films, and they continued to have life after the birth of feature films as matinees and added value before the main features.

Now in the digital age, many Central Ohio artists have taken on the creation of their own short form entertainment. Some are dramatic, others comedic, and varying in length from 3 minutes to over 25 minutes.

## MEET THE FILMMAKERS

There will be an after party for Question and Answer sessions after the presentation. Get to know the filmmakers, and find out how they made their films in Ohio.

Many of these films are making their big screen debut with the screening series, so this is your chance to see them and meet the stars of tomorrow.

## SUPPORT LOCAL ARTS

By coming out, you are supporting local artists in creating a community that inspires people to make films.
